Analytical report gluten analysis

Sample analysed:

To OI Reparationsbajer Gluten Free: lot 01/08/18, received in intact closed bottle
August, 16, 2016

Methods:

ELISA method Ridascreen R7001: Enzyme immunoassay for the quantitative analysis of gliadins and corresponding prolamines.

LOQ: 5 ppm gluten (proteins)

ELISA method Ridascreen R7021: Enzyme immunoassay for the quantitative determination of peptide fragments of gliadins and corresponding prolamines.

LOQ: 10 ppm gluten (peptides)

Analytical results:

To OI Reparationsbajer Gluten Free: lot 01/08/18:

gluten content according to R7001 ELISA gluten test: < 5 ppm

gluten content according to R7021 ELISA gluten peptides test: < 10 ppm
